EXPERIENCE

Epic Games — *Engine Programmer Intern (Horde)*

MAY 2025 - SEPTEMBER 2025

Talked directly with users to identify needs and own and ship a new feature with an intuitive interface, modular backend integration, and configuration.

Initiated and led a cleanup effort to improve React code organization and documentation, standardize practices across the project, and increase developer joy.

Yesteryear Games — *Co-founder, Web Developer*

SEPTEMBER 2023 - AUGUST 2024

Designed and developed a website using HTML, Tailwind, and JavaScript, deploying it with Vercel.

Crafted a Steam page with research-backed design decisions to maximize click-through rates and downloads.

PROJECTS

echoes — *Lead Web Developer*

MARCH 2024 - MAY 2025

Directed a small team of new web developers to design and deliver a multi-page SvelteKit website.

Utilized Google Apps Scripting to create an easy spreadsheet-to-JSON data pipeline for updating website information.

ThenToMeet — *Personal Project*

AUGUST 2024 - SEPTEMBER 2024

Developed a web application to identify scheduling overlaps between participants of existing [When2meet](#) events, streamlining coordination for medium-sized project teams.

EDUCATION

Rochester Institute of Technology — *BS/MS in Game Design & Development*

AUGUST 2021 - MAY 2025

Completed a BS and MS in Game Design and Development via RIT's Combined Accelerated Bachelor's/Master's Degree program.
